WineKnowHow

Did you know,

- that wine aroma falls down into 3 different aroma categories
- 1. Primary aroma:** this means aroma defined by the grape variety.
 - 2. Secondary aroma:** this means aroma which arises during the maturation in the cellar like roasting aromas because of the barrique flavor or the aroma brioche which originates from the wine *sur lie*.
 - 3. Tertiary aroma:** this aroma originates from the additional maturation in the bottle. Thus earthy or balmy taste notes occur like brushwood and truffle or honey.
